

Spark gap / surge voltage protection for coupling earthing systems

The FS-V 20 device is a discharge gap with parallel-connected surge voltage protector. It is used to couple different earthing systems. It is connected directly to the equipotential bonding rail concerned.

Application: Coupling earthing systems in data technology sector (functional and operational earthing)

Type	Dimension mm	Highest continuous voltage V	Impulse current (10/350) kA	Nominal discharge current (8/20) kA	Protection level kV	Pack. pcs	Weight kg/100 pcs.	Item No.
